

**THE UNIVERSITY OF THE WEST INDIES  
SCHOOL OF CLINICAL MEDICINE & RESEARCH  
LITERATURE-BASED CURRICULUM  
FOR THE ACCIDENT & EMERGENCY MEDICINE DM PROGRAMME**

The following is a list of recommended texts, journals and reviews for the Emergency Medicine resident which is designed to supplement the clinical and didactic experience. It will be recommended that applicable Emergency Medicine reading materials would be reviewed when clinically relevant on outside rotations so as to keep those cases in proper perspective. It is expected that timely articles will also be provided during the residency to ensure up-to-date education information on the latest advances that are deemed necessary for the residents to be up-to-date on.

YEAR I and Year 2

## Anatomy

- Clinical Anatomy for Emergency Medicine - [Richard S. Snell](#).
- Last's Anatomy – Regional & Applied. Churchill Livingstone, Edinburgh
